INSTRUMENTS

Health & Safety Policy Statement

Soil Instruments is committed to ensuring the health and safety (H&S) of our employees, contractors, visitors, and our other business partners.

To deliver on our commitment we shall:

- **Ensure** that H&S is a central aspect of our operations and demonstrate a commitment to preventing injury and ill health as far as is reasonably practicable.
- **Provide** an H&S management system that is relevant to the nature and scale of work undertaken along with safe systems of work, safe work equipment and a safe working environment.
- **Comply** with all applicable health and safety legislation.
- **Maintain** the H&S management system in accordance with statutory regulations.
- **Communicate** relevant parts of the H&S management system to all employees and other relevant personnel as appropriate.
- **Engage** employees, and other relevant personnel as appropriate, to achieve our H&S commitment.
- **Continually** strive to improve our H&S performance and management system and set measurable objectives.
- **Monitor** and **measure** H&S performance.
- **Review** and revise as necessary the H&S management system to maintain its relevance.
- **Work** with our H&S competence provider Omny Safety, to ensure that our H&S management system remains robust and compliant with current legislation and statutory regulations.

It is everyone's responsibility to achieve a healthy and safe work environment. Towards this, Soil Instruments' employees are responsible for complying with the H&S management system and taking reasonable care of their own H&S and that of others who may be affected by their acts or omissions.

Tony Larkin

General Manager
